Cohen & Steers' Global Real Estate Funds to Merge

NEW YORK, March 21, 2018—The shareholders of Cohen & Steers Institutional Global Realty Shares, Inc. (“IGRS”) have approved the reorganization of IGRS with and into Cohen & Steers Global Realty Shares, Inc. (“CSS”) (collectively, the “Funds”), effective at the close of business on March 23, 2018. With combined assets of approximately \$1.1 billion, CSS will be in the top-10 in assets under management among actively managed global real estate securities mutual funds.¹

The reorganization brings together two highly ranked funds within the global real estate category, each with 4-star overall Morningstar ratings. Cohen & Steers believes that combining the Funds will benefit the shareholders of both IGRS and CSS by reducing annual operating gross and net expense ratios, increasing marketability and providing portfolio-management and operational efficiencies.

The Funds have substantially similar investment policies and the same investment objective of total return—consisting of capital appreciation and current income—which they seek to achieve through investment in equity securities issued by U.S. and non-U.S. real estate companies, including real estate investment trusts (REITs) and other REIT-like entities.

CSS will acquire all of the assets and liabilities of IGRS in a tax-free transaction in exchange for an equal aggregate value of newly issued CSS Class I common shares. IGRS shareholders will receive Class I common shares of CSS in an amount equal to the aggregate net asset value of IGRS common shares, as determined at the close of business on March 23, 2018, less the shareholder’s portion of the costs of the reorganization.

Cohen & Steers expects that after the reorganization, the administrative expenses of CSS will be less than the aggregate current expenses of each of the Funds operating separately, as fixed expenses will be spread over a larger asset base. Additionally, effective at the close of business on March 23, 2018, Cohen & Steers Capital Management, Inc., the Funds’ Investment Advisor, has agreed to reduce the management fee for CSS from an annual rate of 0.80% of average daily net assets to 0.75% of average daily net assets. Cohen & Steers has also contractually agreed to waive its fee and/or reimburse expenses through June 30, 2019, so that the total annual operating expenses (excluding acquired fund fees and expenses, taxes and extraordinary expenses) do not exceed 1.25% for Class A shares, 1.90% for Class C shares, 0.90% for Class F shares, 0.90% for Class I shares, 1.40% for Class R shares, 1.25% for Class T shares and 0.90% for Class Z shares.

¹ Data as of February 28, 2018.

Morningstar percentile rankings as of 12/31/2017:

	1 Year	3 Year	5 Year	10 Year
CSSPX	42	17	19	23
GRSIX	43	16	17	22
<i># of funds (all classes) ranked in peer group</i>	241	220	184	141

Performance data quoted represents past performance, which is no guarantee of future results. Morningstar peer rankings are based on each share class fund returns. Fees waived or expenses subsidized had no effect on the funds' total returns. Since November 2016, sales loads are not taken into account when calculating peer rankings. The overall Morningstar rating is derived from a weighted average of the risk-adjusted performance figures associates with a fund's 3-, 5- and 10-year (if applicable) Morningstar Rating metrics. Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages. Morningstar ratings for both CSS and IGRS for the 3-, 5-, and 10-year periods ended December 31, 2017 are 4 stars, 4 stars and 4 stars, respectively.

The fixed expenses of the combined fund are set forth below, effective at the close of business on March 23, 2018:

Risks of Investing in Real Estate Securities

Risks of investing in real estate securities are similar to those associated with direct investments in real estate, including falling property values due to increasing vacancies or declining rents resulting from economic, legal, political or technological developments, lack of liquidity, limited diversification and sensitivity to certain economic factors such as interest rate changes and market recessions. Foreign securities involve special risks, including currency fluctuations, lower liquidity, political and economic uncertainties, and differences in accounting standards. Some international securities may represent small- and medium-sized companies, which may be more susceptible to price volatility and less liquidity than larger companies. The Funds are classified as "non-diversified" funds under the federal securities laws because they can invest in fewer individual companies than a diversified fund. However, the Funds must meet certain diversification requirements under the U.S. tax laws. No representation or warranty is made as to the efficacy of any particular strategy or fund or the actual returns that may be achieved.
