New York, December 14, 2020—The Board of Directors of the Cohen & Steers Tax-Advantaged Preferred Securities and Income Fund announced the Fund’s first monthly distribution of \$0.130 per common share as well as monthly distributions for January, February and March 2021. The distribution reflects an annualized distribution rate of 6.24% based on the \$25.00 per share initial public offering (IPO) price.

The Fund began trading on the New York Stock Exchange on October 28, 2020, under the ticker PTA.

Distributions will be made on the following schedule:

Month	Ex-Date	Record Date	Payable Date

The amount and composition of the Fund’s distributions will be disclosed monthly at cohenandsteers.com; however, this information may change after each calendar year-end once the final tax characteristics of all Fund distributions can be determined with certainty. Final tax characteristics of the Fund’s distributions will be provided on Form 1099-DIV, which is mailed after the close of each calendar year. The Fund expects to pay monthly cash distributions at a level rate, which may be adjusted from time to time based on its projected performance. At times, to maintain a stable distribution level, the Fund may pay out more than its net investment income.

The amount of monthly distributions may vary over time depending on a number of factors, including changes in portfolio and market conditions. The Fund’s distributions reflect net investment income, and may also include net realized capital gains and/or return of capital. Return of capital includes distributions paid by a fund in excess of its net investment income, and such excess is distributed from the fund’s assets.

Shareholders should not use the information provided in preparing their tax returns. Shareholders will receive a Form 1099-DIV for the calendar year indicating how to report Fund distributions for federal income tax purposes.

Investors should consider the investment objectives, risks, charges and expense of the Fund carefully before investing. You can obtain the fund’s most recent periodic reports, when available, and other
